

O₂y-SMART

OXY SMART OXYGEN ANALYSER incl. accessories

- Battery powered device
- For inert gases
- For mixed gases with hydrogen (max. 10%)
- Measuring cell made of zirconium oxide (maintenance free), long lifetime through intelligent software
- Robust for use at site (protective frame out of rubber)
- Dust- and moisture-proof, also for use around high humidity
- Intuitive operator guidance through symbols
- Coloured enlighten display
- Battery indicator
- Fault indication in case of error

1.2.5004

Technical Data – Analyser:

Measuring range	5 – 999ppm O ₂
Dimensions (L x W x H)	160mm x 80mm x 35mm
Weight	0.35kg
Supply voltage	12V
Charging cable	100-240V with various adapter plugs
Battery life	9h using lithium ion technology

Package includes:

- Oxygen analyser
- Charging cable with various adapter plugs for worldwide use
- Hose set, 1 m, incl. filter and stainless steel probe
- Calibration certificate
- Plastic case with inlay
